

# SIVASANKARAN B

## CYBERSECURITY ANALYST

sivamadhan7476@gmail.com | +91 8056444376 | [Portfolio](#) | [LinkedIn](#)

## SUMMARY

Cybersecurity professional with hands-on experience in penetration testing across web applications, APIs, networks, and vulnerability assessments. Passionate about identifying security weaknesses, delivering actionable reports, and assisting clients in remediating vulnerabilities. Active CTF player and bug bounty hunter with a strong track record of competition wins

## EXPERIENCE

### Associate Cybersecurity Consultant - Security Brigade Infosec Pvt Ltd

SEP 2025 - PRESENT

- Conducted Vulnerability Assessment and Penetration Testing (VAPT) across 10+ customers, including Web applications, API's, Network assessment, Red team exercises, and Configuration reviews.
- Prepare detailed security assessment reports with findings, risk ratings, and remediation recommendations
- Assist clients in understanding and fixing identified vulnerabilities to strengthen their security posture.

### Security Researcher - Public and Private Programs

NOV 2025 - PRESENT

- Conducted security assessments across private bug bounty programs and Vulnerability Disclosure Programs (VDPs), identifying and validating web application vulnerabilities.
- Reported critical security issues including authentication flaws, payment bypass, RCE, Account Takeover, access control weaknesses, misconfigurations, and client/server-side vulnerabilities with clear reproduction steps.
- Performed manual testing and proof-of-concept development to support responsible disclosure and remediation

### CTF Player

2023 - PRESENT

- Regularly competing in Capture The Flag competitions across web, forensics, crypto, reverse engineering, and pwn categories.
- Achieved multiple top placements at national-level CTF events including IIT Jammu, PICT Pune, SNS College and CyberStorm'25 - Redfox Security

## EDUCATION

### BE in Computer Science and Engineering - 7.8 CGPA

EASA College of Engineering and Technology, Coimbatore

2021 - 2025

### HSC +2 - 81%

VK Government Higher Secondary School, Tirupur

2020 - 2021

## SKILLS & EXPERTISE

- **Front-End:** HTML, CSS, JavaScript
- **Programming Languages:** C, Python, Bash Scripting
- **Operating System:** Windows, Linux, Ubuntu
- **Tools:** Burp Suite, Owasp ZAP, Nessus, Wireshark, Splunk, Metasploit, Custom Tools
- **Networking:** Nmap, Nessus, Netcat, TCPdump, Wireshark
- **Reverse Engineering:** GDB, Ghidra
- **Ethical Hacking:** Penetration Testing (Manual & Automation), Vulnerability Assessment, Exploitation

## PROJECTS

---

### Quantum - Automated Attack Surface Intelligence Platform

- Developed a full-spectrum attack surface intelligence platform that automates 30+ stages of reconnaissance, including subdomain discovery, DNS analysis, port scanning, web fingerprinting, cloud asset mapping, and security posture evaluation
- Built a scalable, Dockerized pipeline integrating multiple security tools (Subfinder, DNSX, Naabu, HTTPX, Katana, tlsx) with custom logic for asset correlation, technology detection, and risk-based prioritization of findings
- Designed an intelligence-driven scoring system that analyzes exposure and hygiene factors to rank vulnerabilities and generate interactive HTML reports with attack surface visualization and asset relationship mapping

### Recon Automation Framework

- Developed an automated reconnaissance framework integrating 10 industry-standard tools (Subfinder, Httpx, Naabu, Gau, Nuclei, etc.) to streamline subdomain enumeration, service discovery, and vulnerability identification.
- Designed a modular pipeline that processes targets from domain input to actionable outputs (live hosts, endpoints, parameters, and vulnerabilities), significantly reducing manual effort in penetration testing workflows.
- Implemented structured output generation and tool chaining using Bash scripting, enabling efficient data correlation and faster identification of potential attack surfaces.

## ACHIEVEMENTS & AWARDS

---

- 5th Position In CTF Quest Hackathon in YUGAM'25 - Sri Eshwar College.
- 1st Position in Digital Dilemma in Karpagam College.
- 1st Position in UI/UX Design In CIET College.
- 1st Position in Hackxstream'25 - LIVEWIRE, Madurai.
- 1st Position in CTF Contest in TEXPERIA'25 - SNS College.
- 1st Position in TECH ESCAPE Contest in TEXPERIA'25 - SNS College.
- 9th Position in CYBERSTORM'25 in Collaboration REDFOX SECURITY - SIES COLLEGE.
- 4th Position in Solo & 10th Position in TEAM and CTF Contest ANHAD'25 - IIT JAMMU.
- 3rd Position in Lakshya CTF 2025 - Pune Institute of Computer Technology.
- 2nd Prize in Intra-College Science Expo in EASA College.

## COURSES & CERTIFICATIONS

---

- Foundations of Cybersecurity - Google
- Fundamentals Of Digital Marketing - Google
- Ethical Hacking Essentials - Codered (EC Council)
- Dark web, Anonymity and cryptocurrency - Codered (EC Council)
- SQL Injection Attacks - Codered (EC Council)
- Ethical Hacker - Cisco Networking Academy
- Networking Essentials - Cisco Networking Academy
- Cybersecurity Essentials - Cisco Networking Academy
- Certified in Cybersecurity (CC) - ISC2
- Python - GUVI
- DevOps - GUVI
- Certified Cybersecurity Educator Professional - Red Team Leaders
